URBANPROOF®

OUR TYRES PRODUCED BY A

LEADING SUSTAINABLE FACTORY

The tyre factory is a revolutionizing rubber production with renewable energy like **SOLAR PANELS** and sustainable practices such as using **RICE HUSK WASTE** to fuel the machines.

Not only reduce waste, but also **RECLAIM RUBBER** from anti-leak layers and package it all in **RECYCLABLE PLASTICS**. Using its own **WATER PURIFICATION** installation and complete reuse of the water.

THIS IS **SUSTAINABILITY** IN MOTION!
